

On the call where Jonathan Patlak, Karol Sole, Rod Stipe, Bill Gamlin, Fred Moskowitz, Steve Sawyer, and Bob Wachsmuth.

The meeting started early and the first topic of discussion was the Upcoming Overview Course. We need instructors for the Remediation, Emergency Response, and Management Sections. A number of names were discussed with Karol providing a current phone number for Gail McMillan who now works at Com Ed. And is a good presenter for Radiation. If no candidates can be found for the other topics Steve Sawyer will fill in if necessary. As of this date we have 24 students registered and Rod had an employee of the City of Gary Department of Environment that may be attending as a free seat to promote the CHMM credential to governmental agencies.

The next topic was the Chapter Elections. Rod indicated approximately 34 members have voted at this time. Bill Gamlin advised that the cut off for voting is 11/30/05. This will allow us to tally votes and allow us to announce results at 12/08/05 joint meeting.

We polled those on the call regarding the December meeting. Fred, Bill, Karol, and Jonathan will be attending with Rod and Steve being potentials.

Meeting topics and venues for 2006 were discussed. Right now the tentative schedule is Rod Stipe/Weaver Boos for February a land application treatment process for waste waters-open venue, Jonathan Patlak/ENSR-site assessment presentation, and June/Steve Laughlin/Topic? Presentation. The thought is to try a breakfast meeting venue with June presenting the best potential for that.

Jonathan generated some feedback from his request for Overview presenters. One, Dave Carrey was a venue closer to work request and an email address update and the other was a Kevin Cappo who, residing in Indiana, finds it easier to attend Indianapolis meetings than ours.

The topic of surveying our members was brought up for meeting topics and venues. Karol suggested an after meeting evaluation form that proved successful in St. Louis. She will provide a copy for review and future use. Karol also suggested a topic and presenter from BP, which she will follow up on. Other topics thrown out were Vapor Intrusion, SPCC, and All Appropriate Inquiry, as well as the proposed introduction of electronic manifests by DOT. A fun meeting-golf outing was discussed as well and should be included either on the general all member survey or the after meeting evaluation form.

Next conference call tentatively schedule for 12/15/05.
